DEFINITIONS

HACK

Over 158 cm The ideal hack should be a sound quality animal with good conformation and even temperament. A top class hack will also show elegance and gaiety and demonstrate very good movement. The stride is expected to be long, straight and light, covering a lot of ground with some extravagance. Exaggerated knee action is not desirable. The hack should possess the qualities of a good riding horse, presence, elegance and free movement. It is these qualities that catch a Judge's eye.

PARK HACK

Over 148cm and up to 158cm. The ideal Park Hack should be a sound quality animal with good conformation and even temperament. A top class Park Hack will also show elegance and gaiety and demonstrate very good movement. The stride is expected to be long, straight and light, covering a lot of ground with some extravagance. The Park Hack should possess the qualities of a good riding horse, presence, elegance and free movement.

SADDLE HUNTER

Over 148cm. The ideal Hunter under Saddle should have substance, be active and well mannered, with strong easy paces. A Saddle Hunter must be capable of carrying weight for long distances over varied country. Flat Hunters are expected to gallop in their work out and gallop must play a large part in the decision of the Judge.

RIDING HORSE

This is a Show Horse of slightly less elegance and gaiety than a Show Hack. Over 148cm, it has more bone and substance than a Show Hack but is not as heavy as a Hunter; with workman-like strong even paces, excellent conformation, manners and temperament, and capable of carrying a Lady or Gentleman rider pleasantly over longer journey's than a Show Hack.

LEAD REIN & FIRST RIDDEN PONIES

Both leading Rein and First Ridden Ponies should be safe and suitable. They should possess a good front, even gaits and not too wide for the small riders. The stride should not be too long, as they would unseat the rider and cause the rider to lose balance. Ideally the First Ridden Pony is a little more scopey in both conformation and movement than the Leading Rein pony, although many ponies compete successfully in both sections. Combinations in one section may not enter any other section. Lead Rein riders must be 7 years of age and under. Ponies to be led by an adult with the leading rein attached to the noseband of a snaffle bridle. Ponies will be asked to walk and trot, no cantering under any circumstances. Running or bearing reins or similar tackle are not allowed.

PONY

The ideal pony should be a sound quality animal with good conformation and even temperaments. A top class pony will also show elegance and gaiety and demonstrate very good movement. The stride is expected to be long, straight and light, covering a lot of ground with some extravagance and free movement. The pony should possess the qualities of a good riding horse, presence, elegance and free movement. Ponies should have definite pony type and characteristics.

PONY CLUB

This class is open to all riders up to the age of 24 years. No height certificate is required There is also an adult ride for those 25 years and over

NOVICE A Novice exhibit or rider is one that has yet to win six (6) classes in any division within the competitions provided by any A&P show/event.

KAITAIA and DISTRICTS A&P ASSOCIATION NAIT NUMBER 441834

DAIRY and BEEF CATTLE RULES REGARDING TB REGULATIONS

For animals from herds which are under movement restrictions imposed by and Official Directive or Restricted Place Notice by the Animal Health Board – the owner will have to satisfy the requirements of the Movement Control Notice before animals can move off the property to the Show. Provided these requirements are met, the AHB cannot prevent these animals from being shown. However, A & P Associations may choose not to accept such animals in the interests of other exhibitors. The RAS & the AHB strongly recommended A & P Associations do not accept such animals.

- For animals from Declared Movement Control Areas – all animals over the age of 90 days are to be tested, and have a clear test within 60 days prior to being moved to the show.
- For animals from C10 status herds in Surveillance Areas (e.g. Northland)
No test is required but a clearly dated test allocation form or other documentation from the AHB must be submitted that shows the herd is not overdue for a whole herd test.
- For animals from all other areas – if the herd has a C3 status or better, no test is required PROVIDED the whole herd test was within 12 months prior to the show, a) if the last whole herd test was within 12 months prior to the show, then show cattle over one year MUST have a clear test within the current show season. b) If the herd has a status of C1 or C2, then show cattle over 1 year old MUST have clear test within the current show season.

The image shows two business cards. The top card is for 'BRAKES COLOURPLUS KAITIA'. It has a dark blue background with the company name in white and a colorful logo. Contact information includes Phone/Fax 09 408 1741, 224 Commerce Street, Kaitia, Email brakescolourplus@xtra.co.nz, and Website www.colourplus.co.nz. The bottom card is for 'BRAKE'S FLOORING XTRA'. It has a black background with 'BRAKE'S' in yellow, 'FLOORING' in white, and 'XTRA' in white with a large yellow 'X' between them. The website www.flooringxtra.co.nz is at the bottom in yellow.

Northern District RAS • Young Parader 2018-2019

Competition for Dairy and Beef Sections

The aim of this competition is to encourage young people to enhance their skills on animal handling and knowledge whilst fostering showmanship between competitors as we as having an opportunity to bridge the gap between calf club and the pedigree ring

- This competition is run in the Northern District only and the overall top four placings will be selected from participants who live within the Northern Districts RAS region.
- Competitors in the Junior competition are to be aged 5 – 12 (inclusive), whilst competitors in the Senior competition are to be aged 13 -19 (inclusive). All ages are as of October 1st of the current show season. Competitors may be asked for proof of age on show day.
- Entry is to be free for all competitors
- In the both the dairy and beef competitions, junior competitors may only enter a calf and senior competitors may enter either a calf or yearling only
- The competitor may only enter the beef or dairy class – not both. Any competitor recorded competing in both the dairy and beef section will be excluded from the overall competition
- To be eligible for the overall Northern District Young Parader prize, the competitor must complete in four or more Northern District A & P shows in the particular class for the current Show season.
- The competitor may enter as many shows as they wish, however their final score will be calculated as an average from their top four shows.
- The highest scoring Northern District competitors in each of the four classes will receive \$100 for 1st place, \$75 for 2nd, \$50 for 3rd and \$25 for 4th place, sponsored by the Northern District RAS.
- Judges are to line-up all competitors. Shows are to record the names of all entrants regardless of placing

Results will be published on the Northern Districts RAS Youth Facebook page shortly after each show in order to track the competition. Please contact this page directly with any queries.

Points are to be awarded as follows (regardless of number of competitors in the class)

1st = 6, 2nd = 5, 3rd = 4, 4th = 3, 5th = 2, 6th = 1

Judging Guidelines

Presentation of the competitor

- The competitor will wear a plain white shirt with dark pants and clean, strong, appropriate boots for cattle handling. No open footwear or gumboots are permitted.
- No logos or advertising, including stud names to be present on any clothing including hats

Presentation of Animal

- The animal itself is not judged however the general presentation is taken into consideration as the youth will have prepared the animal for the ring.
- Rope, leather, chain and nylon halters are permitted. It should be clean and fit the animal correctly
- For beef competitors if a show stick is carried it must be carried correctly.

Parading of the animal

- The competitor should aim to display the animal in such a manner that the judge gains a clear view of the animal at all times and that the animal is seen to the best of its ability.
- Emphasis is placed on the effort of the competitor to be able to parade and handle in general regardless of the particular animal on the end of the halter, therefore senior competitors will be requested to swap animals (juniors will not)
- The competitor should be able to stop, move the animal on and keep under control whilst being aware of where the judge is in the ring
- **Outside assistance is not permitted under any circumstances and competitors will be disqualified**

BEEF & FAT STOCK

- Prize money may be substituted by products
 - Classes for ANY DISTINCT BREED must be stated on the entry form
 - Three or less entries in class, No Prize Money, Ribbons only
 - First prize bull in any breed, judge for Champion and Reserve
 - First prize female in any breed, judged for Champion and Reserve
 - Unregistered section NOT eligible for Championship ribbons
 - The age of junior yearlings is to be computed on or after June 1. All beef bulls 2 years and over must be ringed and led. All bulls must be securely tied in the stalls by an adequate halter as well as a leather collar or chain.
- All pedigree cattle one year and over must be registered with the Breed Society

BALLANCE FERTILISER POINTS PRIZE FOR BEEF STOCK

- 318 Chiller (295kg to 320kg)
- 319 Fat Ox (320kg and over)

Biosecurity New Zealand

Tiakitanga Pōtaiao Aotearoa

MYCOPLASMA BOVIS

Minimising the risks at shows and events

Mycoplasma bovis is a bacterial disease that only affects cattle. The main way *Mycoplasma bovis* spreads is through close and prolonged contact between cattle; and calves drinking milk from infected cows.

The risk of *Mycoplasma bovis* spreading at A&P shows, calf days, rodeo and other events where cattle are present is quite low, but there is still a risk wherever cattle may mingle.

Event organisers need to take these risks into account and manage mitigations when deciding if to hold their event while *Mycoplasma bovis* is being eradicated in New Zealand.

Animals on known infected farms are under movement control, and cannot be moved without MPI's permission. However, through efforts to eradicate this disease we are still tracing movements of animals, and we expect there are some we haven't reached and tested. So, it's important you take extra precautions to reduce your chances of spreading *Mycoplasma bovis*.

What can exhibitors do?

- Animals on properties under any suspicion of exposure to *Mycoplasma bovis* should not be transported to shows and events.
- Animals showing clinical signs of **ANY** disease should not be transported to shows, as per normal biosecurity practice.
- Make sure your cattle are tagged and registered with NAIT.
- Keep your NAIT movements up-to-date and accurate and record movements to and from the event. Guidance is available on naif.co.nz
- Practice good on-farm biosecurity and clean and disinfect outerwear, boots and equipment before attending a show or event. On your return, clean and disinfect again before taking outerwear, boots and equipment back onto your farm. For more information refer to the guidance on mpi.govt.nz/bovis

More questions?

Call MPI on 0800 00 83 33

Email: MBovis2017_Liaison@mpi.govt.nz

www.mpi.govt.nz/bovis

What can show and event organisers do?

- Ensure that exhibitors and participants are aware of your biosecurity and hygiene recommendations and their NAIT obligations.
- Animals without a NAIT tag should be denied entry and non-compliance reported to MPI.
- Ensure stalls are cleaned out before you put cattle in them, and after cattle are removed. Where possible, don't use the same stalls for cattle belonging to different exhibitors.
- Provide hand sanitiser for anyone likely to be handling the heads of animals from different owners.
- Any milking equipment used at the show should be cleaned and disinfected between uses on animals from different exhibitors.
- Give animals individual water – do not allow animals to drink from shared troughs.
- Best practice is to separate animals of the same species where possible, to prevent the spread of any disease. This can be by separating animals with walkways, using empty pens, and using outriggers or double barriers where animals are in adjacent pens.
- Don't keep animals in show pens for long, to reduce stress and nose-to-nose contact.
- Keep animals from different herds separate and avoid their nose-to-nose contact.
- Ensure pens are secure, and that when animals are out they are tethered or being securely managed by somebody who is strong and skilled enough (this could mean supervising children with calves).
- At rodeos when cattle are using the chute, disinfect all surfaces between each use with approved agricultural disinfectant, mixed as per manufacturer instructions.
- It's an opportunity to teach people about on-farm biosecurity. There's more on www.mpi.govt.nz/bovis

FAR NORTH VETS DAIRY CATTLE SECTION

Judging Commences 9.30am

DAIRY TROPHIES

Dallas Schluter Memorial Trophy- Most Points over the Dairy Section
